HINTS FOR PARTY PLANNING

FOOD QUANTITIES. The time of day and purpose of the occasion will influence the quantity of food needed. If you are serving light snacks or refreshments during or near meal times, you will typically need a larger quantity than between meal periods. The quantities planned for per-person events are average sized portions. We can help you determine the appropriate amounts for your group.

PICK-UPS. The most economical way to host a party is to pick up the food and set it up yourself. Orders can be picked up at our catering kitchen.

EQUIPMENT. All orders are packed in disposable containers. Appropriate serving utensils are included in your order.

LOCATION. Standard University procedures should be followed when reserving rooms.
